

Hampshire Together

Modernising our Hospitals and Health Services

Agenda

Introduction to Hampshire Together: Modernising our Hospitals and Health Services

Alex Whitfield, Chief Executive, Hampshire Hospitals NHS Foundation Trust

Our clinical vision

*Tamara Everington, Haematology Consultant and Chief Clinical Information Officer,
Hampshire Hospitals NHS Foundation Trust*

Your Questions, Ideas and Views!

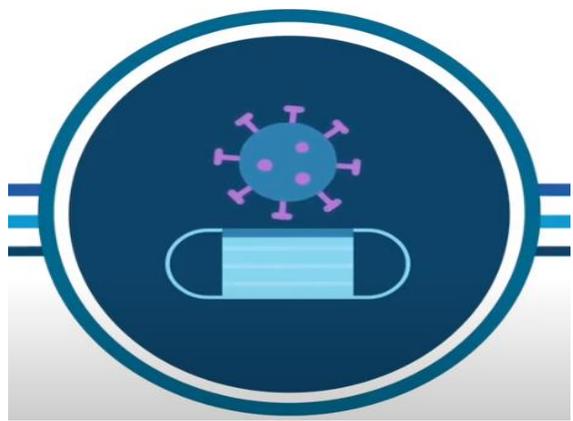

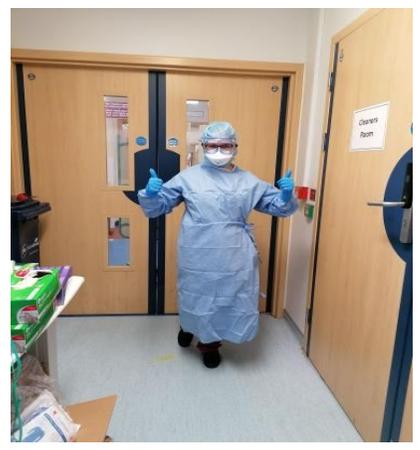

- Opportunity arises out of the government's programme for new hospitals – The Health Infrastructure Programme 2 (HIP2)
- Hampshire is part of the second round - with construction aimed for **2025 to 2030**
- The money is for a new hospital. But a new building can be a catalyst for **so much more**
- We've received £5 million to start developing the plan that will deliver for **all the people** of Mid & North Hampshire

But we need your help to make **sure we get it right**

Modernising our Hospitals and Health Services

The challenges

Hampshire Together

Modernising our Hospitals and Health Services

The opportunity

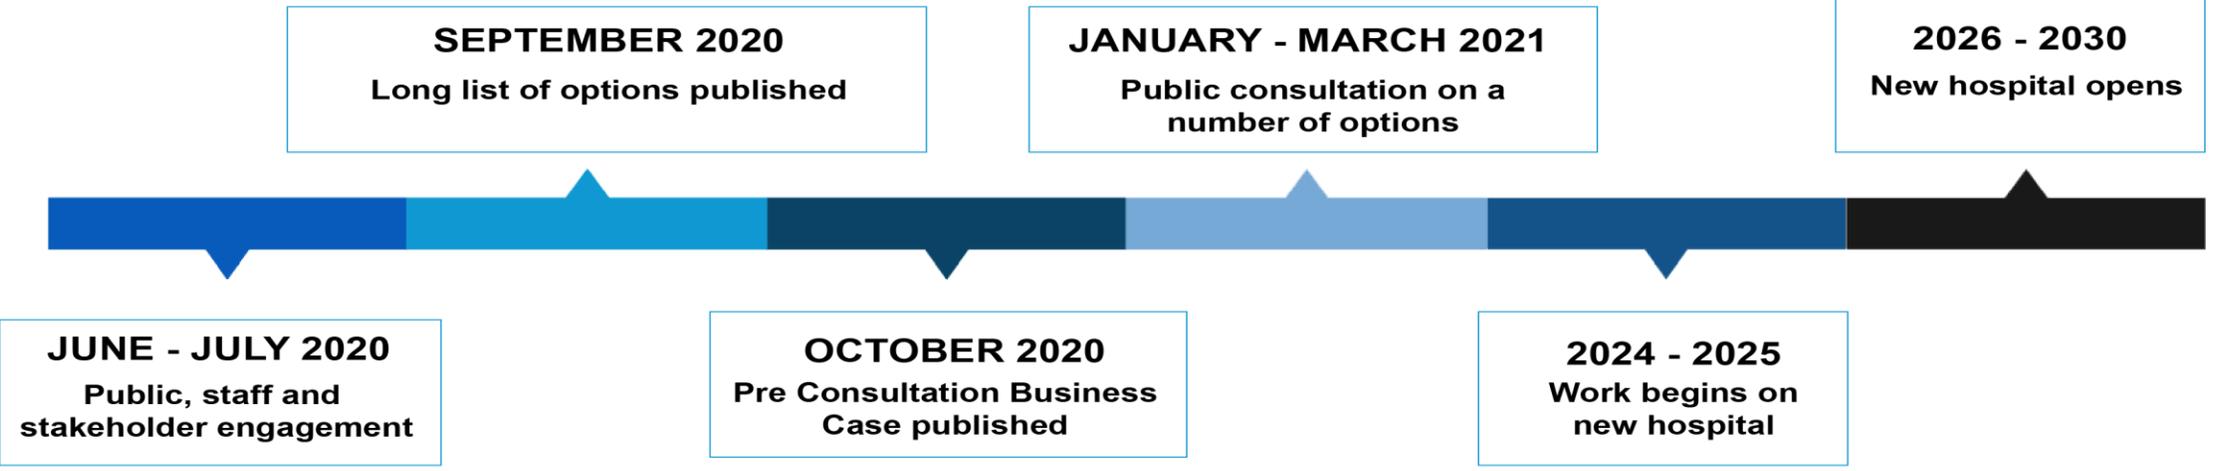

We're part of the government's new

NHS
Hampshire and Isle of Wight
Partnership of Clinical Commissioning Groups

West Hampshire
Clinical Commissioning Group

Timeline

Next steps – we need your help!

This is the **start** of the process – and your views, insights and opinions are **critical** to getting this right.

So please let us know what **matters to you** and why.

Nothing is off the table and all ideas are **hugely welcome**.

OUR CLINICAL VISION

Hampshire **Together**
*Modernising our Hospitals and
Health Services*

Working together

Working together to provide joined up health services across north and mid Hampshire

Our vision

A health, well-being and care service which will support people to access the **right care, in the right place at the right time.**

Our case for change: **Clinical sustainability**

What has COVID-19 taught us?

Principles of our vision

All health and social care services will work together to deliver the best care for our people

People will have easy, timely access to the help and support they need

Services will be designed to meet their requirements

Services will be sustainable, efficient and high quality; with a focus on delivering the best clinical outcomes possible

Where practical, care will be provided in people's homes or as close to them as possible

People will be empowered to self-manage wherever they can, with the information and support required to do so; including access to diagnostic tests and specialist advice when needed

Where necessary, services will be centralised to ensure the best possible care and outcomes

We will be able to live within the money allocated to our area; reducing duplication and inefficiency

We will ensure our healthcare facilities are accessible, fit for purpose and improve a sense of wellbeing for those using them and working there

Our services will attract the best staff, being renowned for high quality, innovation, research and training support

WE NEED YOUR HELP

Please help us develop our health services to provide outstanding care to all the people of north and mid Hampshire now and for future generations.

How can you help?

- Visit www.hampshiretogether.nhs.uk and fill out an online Your Views form
- Share our events calendar: www.hampshiretogether.nhs.uk/events
